Heavy Vehicle Manufacturing & Structural Steel Fabrication Specialists

- **Location:** Al Sajaa Industrial Area, Sharjah, UAE
- **Website:** www.goldenspace.ae

ABOUT OUR COMPANY

Based in the heart of Sharjah's booming industrial hub, **Golden Space Auto Maint L.L.C.** operates a state-of-the-art 15,000-square-foot fabrication facility. We specialize in 100% in-house engineering, custom manufacturing, and heavy-duty repairs of commercial trailers and vehicle bodies.

Our products are built from high-strength structural steel, engineered specifically to handle the extreme temperatures, demanding road conditions, and strict legal weight regulations of the UAE and GCC logistics corridors.

Why Choose Golden Space?

- **15,000 Sq. Ft. Facility:** Scale and machinery built for heavy industrial production.
- **In-House Engineering:** Custom blueprints tailored to your fleet's exact requirements.
- **RTA Compliance:** Every build meets strict UAE safety and licensing standards.
- **Strategic Location:** Based in Al Sajaa for rapid turnaround and delivery across the UAE.

OUR MANUFACTURING CAPABILITIES

We design and manufacture premium commercial trailers tailored for logistics, construction, oil & gas, and infrastructure sectors.

- **Flatbed & Low-Bed Trailers:** Engineered for heavy machinery, construction equipment, and bulk industrial cargo.
- **Skeleton & Container Trailers:** High-strength chassis built for heavy maritime and port container hauling.
- **Tipper & Bulk Aggregate Trailers:** Robust hydraulic designs engineered for smooth hauling of sand, rock, and debris.
- **Car Carriers & Box Trailers:** Secure enclosed or open multi-car transport units built to maximize structural volume.

FEATURED PRODUCT: SPECIALIZED A-FRAME TRAILERS

Our specialized **A-Frame Trailers** are custom-engineered for transporting fragile, large-format, or high-center-of-gravity cargo vertically.

- **Ideal For:** Architectural glass panels, pre-cast concrete slabs, marble sheets, and structural plates.
- **The Design:** A rigid, triangular structural steel central spine prevents material shifting.
- **The Benefit:** Reduces transit damage, optimizes weight distribution, and ensures secure tie-downs for high-risk loads.

HEAVY VEHICLE MAINTENANCE & REPAIR

- Full chassis repair and heavy structural welding.
- Axle repairs, suspensions setups, and alignment corrections.
- Pre-RTA inspection upgrades and fleet compliance modifications.

PARTNER WITH US TODAY

Let us build the heavy infrastructure that keeps your business moving forward. Contact our technical sales team for custom blueprints and manufacturing quotes.
